Force Protection Video Announces the Release of the LE100 and LE101 in Car Video Recording Systems

CARY, N.C.–(BUSINESS WIRE)–July 13, 2016–

Force Protection Video Equipment, (OTC Markets: FPVD) which sells HD body camera systems and accessories for law enforcement announced that it has released the LE100 and LE101 1080 HD in car video recording dashcam systems.

The LE100 and 101 are both state-of-the-art designed in-car dash camera systems strategically built around Ambarella A7 chip sets (AMBA).

The LE100 and 101 key design features are:

- Ambarella A7
- 1080 HD video
- 140 degree FOV
- Loop recording
- 16GB of internal storage,32 GB max
- GPS recording (101)
- Motion recording

The LE100 & 101 was developed using the current state-of-the-art Ambarella A7 chip set. These cameras are used to record and provide evidence for not only law enforcement but government owned vehicles. These cameras will provide video evidence to protect federal, state or local governments from frivolous lawsuits brought against them as well as providing fleet accountability for municipalities.

“We are excited to introduce high quality camera systems designed around the Ambarella chipset,” said Paul Feldman, President, Force Protection Video. “These new cameras will be an asset for federal, state and local governments to protect their employees and communities.”

Force Protection Video also sells the LE10 and LE50 cameras which are rugged, HD-designed on-the-body cameras which incorporate Ambarella (NASDAQ: AMBA) made chips that allow cameras and other devices to record high definition video. It is the chip supplier of the popular GoPro® (NASDAQ:GPRO) sports cameras.
