APEX, N.C.–(BUSINESS WIRE)–Force Protection Video Equipment (OTC: FPVD) announced today the release of its 2018 Product Catalog.

> “Our new 2018 Product Catalog illustrates our continued advancement for on the body camera systems as well as specialized surveillance cameras for law enforcement.”
>
> Tweet this

This new catalog illustrates the increasing breadth and depth of the Force Protection Video Equipment product lines and its continued commitment to innovation, performance in being an industry leader in providing state-of-the-art electronic surveillance equipment and specialized training to law enforcement agencies throughout the United States.

This catalog features the latest products for use in body worn camera systems and software as well as for covert surveillance.

The 2018 Product Catalog is available now and has been circulated to over 25,000 Police and Sheriff Departments. (This catalog is considered a restricted item by the U.S. Justice Department and is not available to the general public. The Force website is password protected for restricted products).

Many of our cameras are state-of-the-art designs using the Ambarella chip design. All of our cameras and recording devices have FCC, IC and CE certification. This is a must for our Law Enforcement customers to help ensure the quality of our products but also to maintain the legality of the recordings as evidence in a court of law. The added cost we absorbed in obtaining these certifications evidence our commitment to providing only quality products.

Paul Feldman, the Company’s CEO, stated, “Our new 2018 Product Catalog illustrates our continued advancement for on the body camera systems as well as specialized surveillance cameras for law enforcement.”

The Force Protection Video cameras are rugged HD designs which many incorporate Ambarella (NASDAQ: AMBA) made chips that allow cameras and other devices to record high definition video. It is the chip supplier of the popular GoPro® (NASDAQ:GPRO) sports cameras.
