

IMPORTANT: The following applies when downloading videos to a Computer.

- 1). Plug the USB Cable into the USB port on the side of the LE15; then plug into an USB port on the computer
- 2). Once the camera is plugged in, you will see it's looking for a password; press the (OK) six times which is the password: 000000
- 3). Once the password is accepted; the computer will automatically define the camera as a drive (i.e. D:\) - Whatever the next drive letter is on your computer
- 4). Go to the computer and you can view, copy, or delete any videos / pictures on the LE15

NOTE: Do you try to download using the dock. This is another security feature of the LE15 and is not available on the LE15 Body Cameras unless VeriPic Software was purchased.

LE15 Body Worn Camera – Force Protection Video

1. Introduction

Product Overview

Force Protection Video's Body Camera LE15 is ruggedly designed to provide law enforcement, security, and emergency personnel with super Full HD 1296p video recording capabilities, and one-button recording and activation. When worn on the body, it happens in the field as accurate information for further analysis. Featuring a 32GB (64GB/128GB) internal memory, pre-record buffering, importance tagging, and integrated Infrared LEDs for night vision, LE15 is equipped to perform in any conditions.

With full featured and adaptable operation, LE15 can record video and audio simultaneously, or audio only for suspect interrogations and victim/witness statements. LE15 is fully configurable and offers multiple recording quality, super full HD 1296p video down to 720x480 resolution, giving users the options to adjust the recording quality according to their storage capabilities.

LE15 can also take up to 20 high-resolution snapshots, which, together with video, can be viewed on backlit, 2-inch LCD color screen or on an HDTV screen using a HDMI connector. Security protocols of the device are secure to prevent accidental deletion of evidence or modification of system settings. Video footage is also digitally watermarked with the user ID, time, and date, ensuring the authenticity of collected video of the event. The internal GPS receiver provides automatic location tagging of video- and still-captures, offering irrefutable substantiation of where and when the audio and video were recorded.

Box Contents

- Body Camera LE15
- Charging Dock
- USB Cable
- 360 Degree Rotatable Clip
- User Manual
- Shoulder Clip
- Car Charger
